Bravo 10 Foot Pump

Product **Manual**

Technical Data	3
Instructions for Use	4
Repairs	5

WARNING: Carefully read this manual before operating the Bravo 10 Foot Pump.

NOTICE: The manufacturer takes no responsibility for the consequences of actions not complying with the instructions given in this manual.

Technical Data	Bravo 10 Foot Pump
Product Code	180006
Materials	Nylon Reinforced Fibreglass
Capacity	5 ltr (normal pressure) / 1.6 ltr (high pressure)
Dimensions	35 x 25 x 8 cm
Max. Pressure	800 mbar (11.6 psi)
Weight	1.9 kg
Colour	Grey with Yellow Hose*

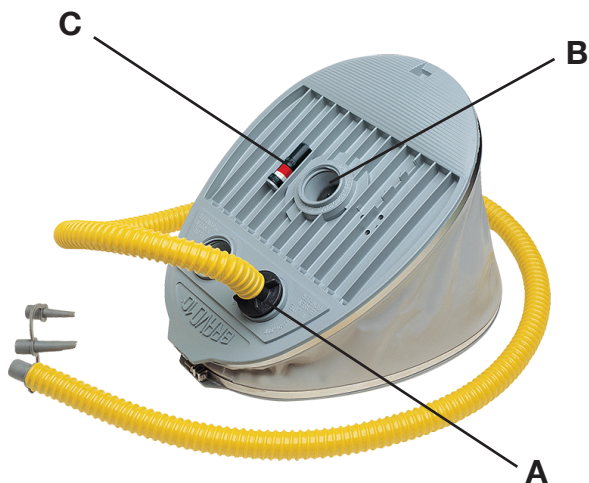

Note: Colour of product may vary.

	Total Volume	Output Volume/ Stroke	Obtainable Pressure
Volume Chamber (A)	5000 cc	3600 cc	~ 150 mbar
Pressure Chamber (B)	1650 cc	1350 cc	~ 300 mbar

WARNING: The pressure indicator (C) is not a gauge meter. The manufacturer will decline any responsibility for damages caused by the use of this as a gauge meter.

Instructions for Use

With the Bravo 10 Foot Pump, inflation to the recommended pressure of all fabric or rubberised boats, can easily be achieved with very limited effort.

How to use

1. Start inflating using the big chamber (A) until the fabric is tight (internal pressure of about 100 mbar).
2. Then move the hose to the small chamber (B) and go on without effort until the desired pressure is reached.
3. Should you not use a pressure gauge to control the boat pressure, the Bravo 10 Foot Pump is provided with a visual pressure indicator (C) to warn against over-inflation.
4. The pressure indicator works only by using the pressure output and it displays the pressure from 100 to 300 mbar by a red signal.

Repairs

As a general rule, repairs/damaged products will need to be assessed in two categories:

a) that which is repairable at the base, or b) serious damage that will need to be repaired by MFC International.

If in doubt as to the extent of the damage and the level of repairs necessary, please contact the MFC service department on +44 (0)1443 433 075.

WARNING: Repairs may only be carried out by the manufacturer, or people certified by MFC International Ltd.
